MATH IS HARD

Chapter 8 by Lex

Easy as 123

$F=MA$ is easier than 91011, but harder than 678. Nothing is as hard as $X=765$ because you have to understand that $X=765$ is easy as 123, then you know that 123 and $X=765$ ARE THE SAME....

Math isn't hard! :)
